Panels Submissions:

I would like to hold a panel session at the conference. How do I submit my request?	All panel requests must be submitted to the 2022 submission website. To be considered a panel, you are required to have 3-5 panelists. Visit http://www.alsb.org/annual-conference Click on In-Person Call for Participation The first question on the submission form is to select your presentation type. Please remember to select Panel .
What is the deadline to submit my panel request?	11:59 PM on May 1 NOTE: Only the Chair of the panel should complete the submission. Please do not make multiple submissions for the same panel. Please include the available dates of your panelists in the submission process.
When will I find out if my panel has been accepted?	Panelists will be notified of acceptance in 1-2 weeks of the panel submission deadline.
What makes for a good panel proposal?	The best panels bring together diverse voices from among the Academy membership to address an issue of importance to the discipline, to support the professional development of our members, and/or to explore an emerging scholarly issue related to research or teaching. Please consider whether your panelists reflect the diversity of the Academy's membership. Conference organizers will review favorably proposals for panels that are broadly inclusive in terms of gender, race, ethnicity, type of institution, and seniority of panelists. We reserve the right to suggest additional panelists when proposals would be improved by a more diverse mix of voices.
If my panel is accepted, when will it be scheduled?	We try to schedule one panel per breakout session. Please be sure to include the dates all panelists are attending the conference with your submission. Shelly would like to have all panels scheduled by May 15.
If I did not submit my panel request by the May 1 deadline, can I still submit a request?	Only if we have panel slots still available.
If I have questions about panels submissions, who do I contact?	Shelly Whitmer at sjmoore@umich.edu

Scheduling of Papers

A common question each year is how we go about grouping papers for presentation at the conference. Papers are grouped by author-provided topic categories. Please note that authors are asked to provide the topic category that best fits their paper during the submission process. The papers are scheduled to group as much as possible those with the same categories provided by the author(s), subject to dates the presenting author(s) is/are available to attend and other conflicts as indicated.

For example, while four papers addressing the same general theme may be submitted to the conference, if the four authors indicate different topic categories for their papers, they likely will not be scheduled in the same session. Each paper will instead be scheduled in a session with other papers whose authors selected the same topic category.
